Re: National Pollutant Discharge Elimination System (NPDES) Discharge Monitoring Reports (DMRs)

Dear Permittee:

Enclosed is a supply of preprinted Discharge Monitoring Reports (DMR). The preprinted forms reflect effluent limits, monitoring, and reporting requirements currently in your permit.

Please note the following important items:

Please take time to review these forms. The permittee is responsible for reporting exactly as the NPDES permit requires, even if the preprinted DMRs are not complete or correct.

If you did not receive a complete supply of DMRs, please make a master copy of a DMR and adjust the dates for future submittals.

It is necessary to fill in the number of excursions, frequency of analysis and sample type in their appropriate columns.

It is necessary to date the DMR and sign every page.

If all the DMRs prepared for a particular month are not used (e.g., a specific outfall does not have a discharge), please note (no discharge) on the DMR, sign and submit it with the other completed DMR forms.

Fill in every blank space on the form. This will prevent your facility from appearing on the violation's list for non-reporting.

Mail the original copy of the completed DMRs to the following address:

U.S. EPA, Region 10
